

WHITE MAIZE: **KEP**

TYPE

- Open pollinated

DISEASE TOLERANCE***

- Cobrot: 4
- Northern Leaf Blight : 4
- Brown Rust : 3
- Streak disease : 5
- Grey Leaf Spot : 5

AGRONOMICAL CHARACTERISTIC

- Days to 50% tassel* : 65-74
- Heat units to 50% tassel : 710
- Days to physiological maturity : 121-135
- Heat units to physiological maturity : 1380
- Growth period : Medium
- Tillering** : 3
- Prolificacy*** : 5
- Drydown period : Medium long
- Standability*** : 3

Zea Mays L.

***First digit - Warm areas**
**** 1 - Few**
***** 1 - Good**

***Second digit - Cold areas**
**** 9 - Many**
***** 9 - Poor**
